WHO WE ARE

We are global travel and business consultants based in America's agro-rich Central Valley. We build economic, educational, and tourism bridges to connect America and Africa. We help people of Africa secure travel visas to America, as well as help African students secure admission into American institutions of learning. Being aware of the needs of visitors to have a tour of America's best views, we help tourists from Africa to locate the best tourist attractions in Central Valley County and beyond. Going beyond, we help visitors from Nigeria, Uganda, Liberia, Sierra Leone, and other African countries with logistics to attend International trade shows, seminars, conferences, workshops, etc. The total well-being of Africans coming to America is our concern at CGBV!

Want To Travel Abroad To The **United States of America** **But Don't Know How** ?
